

INTERESTING INVERTEBRATES

Across:

1. I have two big pincers and a big tail that people like to eat with butter.
3. I carry a home with me. When I get too big for it, I have to find another one.
7. We don't live in the ocean, but there are more of us than any other type of animal in the world.
9. Most animals without backbones live here. It's salty!
10. I'm an animal but I don't really move. I'm full of holes and you might use me to clean up in a bathtub.
11. Some people think I'm dangerous, because of my pointy tail, but I can't hurt anyone. My tail helps me right myself when I get turned upside-down.
12. An animal without a backbone
16. I usually have five arms and look like something you would see in the night sky, but I'm not a fish.
17. I'm famous because clownfish live in my tentacles.

Down:

2. I have two shells that I can hold together very tightly. People used to use my shell as money.
4. I'm pretty small, but I live in huge colonies. I can make some of the biggest structures in the world called reefs.
5. A place near the ocean where you have fun during the summer. You can find lots of shells washed up.
6. I'm the smartest animal without a backbone. I also have eight arms.
8. Fish, birds and people have these in their bodies, but bugs, worms and shrimp do not..
13. I stay underground most of the time and I'm pretty good to take fishing.
14. I look like a porcupine but I don't have any bones
15. I've got two pincers and when you are in a bad mood, people may think you are being like me.
18. A wonderful place to see ocean life in Camden, NJ.
19. I'm the biggest animal without a backbone and I live in the deepest parts of the ocean. I have to fight with whales because they try to eat me.
